

## Is You With Me

Madcon

Is ya with me?  
Girl, you're my whole world  
Yah, Yah  
Is ya with me?  
And if so, this is your to let you know  
Baby, this is worth your time  
And if you could, let me make your heart mine  
Yeah, yeah

If I could wake up tomorrow and you are in my arms  
Oh I, I would tell everybody, yeah  
Only way that this could happen, is if you come home with me to  
night  
I would make you at bay, yeah

Is you and me alone, will I put on a song  
You got me going, so I whisper in your ear

Is ya with me?  
Cause everytime I see you I know  
You are the lady of my dreams, eh  
Is ya with me?  
Pull my hand and let me guide you  
You got me feeling so weak, eh  
Baby, this worth your time  
And if I could, let me make your heart mine

Down from the start, a heart, foot to the dance  
Sent for me, meant for me, make, make me good band  
Walk by my side, never leave me alone  
Even when I was wrong, never leave me alone  
Love, love, affection, sense of direction  
Let you be my angel, I'll be your protection  
Tip it slow, dip it slow, YOLO for the dough  
Me plus you too, plus two, that's four  
Never more, yo, yo

See I've been running, woman, wondering if to let you go  
Cause everytime I think we good it's like you let me on  
And yeah we love, we fight, we share, we cry, we get it on  
But it feels like love is your career and I'm yor stepping stone  
e  
But you're my only (only one), I'm only hoping that you get it  
The only (only one), I mean so open, I regret it  
So I'm asking you this one last time
