

Miracle

Madcon

Turn the page (yeah)
There'll be better days ahead
Don't cry, brown eyes
You'll be whole again (come on)
No rush
And if so you feel my touch
Let me walk on water
To prove I'm right, it's above

With every breath you take I stay
It's a miracle, miracle
This love's not a dream
With every step you make I stay
It's a miracle, miracle
This love's not a dream
Stay awake, stay awake, stay awake

Open wide (open wide)
There's a sunrise in your side (let it shine)
Take it in, you're alive
I'mma fight for your trust
I'll defend anything I must (come on)
Cause you don't live, fool
Not when it feels this right (yeah)

With every breath you take I stay
It's a miracle, miracle
This love's not a dream
With every step you make I stay
It's a miracle, miracle
This love's not a dream
Stay awake, stay awake, stay awake

I'm saying love is Chess and maybe you're my endgame
Am I sleeping, saying nobody else name
In the world of loving we're like a template
Saying every move together, feel like check mate
Let me check, babe, uhm
Want it? Check
So why try to change it if you love it? Check
I love it, the ends to by means
See I'm trying to stay awake cause you're better than a dream

With every breath you take I stay
It's a miracle, miracle
This love's not a dream
With every step you make I stay
It's a miracle, miracle
This love's not a dream
Stay awake, stay awake, stay awake
