

# Share My Sky

Madcon

Eyo  
Uh-huhyo you see that  
No doubt  
That's crazy  
You know you've gotta say something right  
She's making me as the question  
What's the question?

Who's she sitting at the sushi bar  
Is she with the dude with the fat cigar  
'Cause he in the air like blaze-bla  
And if so why the hell's she looking at me  
And why can't stop looking at her  
I'm one of two guys in room full of girls  
And thought she's staring in the space and she seems so distant  
She's the hottest body in the solar system

Go on with your bad self girl  
Look how you shine ooh you must be a star come share my sky  
Go on with your bad self girl  
You're just so hot  
I look in you and wish you'd share my sky  
Way more than a feeling  
Ooh ooh  
Way more than a feeling  
Ooh ooh

You're so much more

You see I've met a lot of girl, just none like you  
A lot of them are good just unlike you  
See everytime you do that thing  
It's like we're floating on the clouds  
'N like I've got wings  
I need to move ahead and impress  
You see I'm aiming for the stars and won't settle for less  
Are you from outer space girl you're so different  
You got the hottest body in the solar system

Way more than a feeling  
Ooh ooh  
Way more than a feeling  
Ooh ooh  
You're so much more

Why are you out there all alone  
I just don't get it  
I just don't get it  
You could have anything ore anyone  
I just don't get it  
I just don't get it

Way more than a feeling  
Ooh ooh  
Way more than a feeling  
Ooh ooh  
You're so much more
