## **The Signal**

You sending me signals I send them back to you I send them back

Out of sight, out of mind Came out of nowhere, started to shine My eyes they can't take it Who loves somebody saying it? You got me wheezing from the smoke the way that you set my soul on fire And the signals I'm sending Read the signals I'm sending

It don't say stop, it don't say no I'm sending a call out, I want you to know Pick it up I'm sending L-O-V-E Sending L (sending) O (sending) V-E

You sending me signals, I send them back Don't take a rocket scientist to see that you sending me signals I send them back to you I send them back

Oh my god you're redifined Are you an illusion? Are you a sign? Please somebody tell me Are the heavens speaking to me? Yeah If you're my Venus then forgive me if I can't take my eyes off you The signals you're sending I'm reading the signals you're sending

It don't say stop, it don't say no I'm sending a call out, I want you to know Pick it up I'm sending L-O-V-E Sending L (sending) O (sending) V-E

You sending me signals, I send them back Don't take a rocket scientist to see that you sending me signals I send them back to you I send them back

Just know the reason I'm always feeding signs you I'm always trying to read to see if what you sending me is true

It don't say stop, it don't say no I'm sending a call out, I want you to know Pick it up I'm sending L-O-V-E Sending L (sending) O (sending) V-E

You sending me signals, I send them back Don't take a rocket scientist to see that you sending me signals I send them back to you I send them back
