

Butterfly Effect

Maddi Jane

You don't have to fear now, be still
Promise that will love you, I will
I am gonna breathe new breath into your wings
I am gonna breathe new breath into your wings

And lift you up
Outta the dark, outta the dark
I fill your cup
Lift up your eyes, look to the skies
And feel my love
Outta the dark, outta the dark
I'll lift you up
I'll lift you up
Listen to love

Outta the dark, outta the dark
I fill your cup
Lift up your eyes, look to the skies
And feel my love
Outta the dark, outta the dark
I'll lift you up
I'll lift you up
Listen to love

All the pain is leaving now
Memories will go as time fades them out
And I am gonna breathe new breath into your wings
And nothing's really over, now is just the start

I'll lift you up
Outta the dark, outta the dark
I fill your cup
Lift up your eyes, look to the skies
And feel my love
Outta the dark, outta the dark
I'll lift you up
I'll lift you up
Listen to love

Outta the dark, outta the dark
I fill your cup
Lift up your eyes, look to the skies
And feel my love
Outta the dark, outta the dark
I'll lift you up
I'll lift you up
Listen to love
