

Hello

Maddi Jane

Caught up in the moment
My heart
It fluttered
Told me that you loved me
You didn't stutter
Now, I'm wanting more of you
Now, I'm wanting more of you

Took away my hurt
I was going under
Held me in my weakness
Now, I'm covered
As I look for more of you
As I look for more of you

I was running fast, but, with you, I'm running faster
In love with the word, getting life in every chapter
Said it was a phase
But I always stayed
Devil couldn't say nothing
Sling-shot upon my waist
I was born to slay
I was born to do something

I was wandering
I was waiting
For your voice resonating
You found me and pulled me closer
Don't let go
'Cause you had me at "Hello"

You had me at "Hello"
Never needed "Goodbye"
Never needed "Goodbye"
You had me at "Hello"

You got my spot locked
You're in the top slot
Your loving is top-notch
Haters are blocked
You gave me confidence
You gave me evidence
You said you would do it
You're getting me through it
My breakthrough is fluid
Like water

I was running fast, but, with you, I'm running faster
In love with the word, getting life in every chapter
Said it was a phase
But I always stayed
Devil couldn't say nothing
Sling-shot upon my waist
I was born to slay
I was born to do something

I was wandering

I was waiting
For your voice resonating
You found me and pulled me closer
Don't let go
'Cause you had me at "Hello"

You had me at
You had me at "Hello"

You had me at
All I ever needed
You had me at "Hello"

You had me at
You had me at "Hello"

You had me at
You had me at "Hello"

I was wandering
I was waiting
For your voice resonating
You found me and pulled me closer
Don't let go
'Cause you had me at "Hello"

You had me at
You had me at "Hello"

Never needed "Goodbye"
Never needed "Goodbye"
You had me at "Hello"

You had me at
You had me at "Hello"

Never needed "Goodbye"
Never needed "Goodbye"
'Cause you had me at "Hello"
