

Made You Miss

Maddie Poppe

Don't hit me up past midnight
Pretendin' you're just catchin' up
No, shoulda known that, you had a chance
Six months for a call back, you want it bad

Don't blame yourself for tryin'
Just blame yourself for messin' up
No, shoulda known that, you had a shot
Six months for a call back, guess you forgot

Playin' for the takin'
But you gave in when you aimed for my heart

Made you miss me
Now you wanna kiss me
Hope you're listening
Can't delete your history
But I made you miss me
(Made you, made you miss, made you, made you miss)

Made you miss me
Now you wanna kiss me
The words my lips sing
You and me are history
I made you miss me
(Made you, made you miss, made you, made you miss
Made you, made you miss, made you, made you miss)

Can't have your cake and eat it
You had a taste and left the rest
Now what you're callin' bout, there's nothin' left
Six months for a call back, I'm on the list

We make our own decisions, so don't feel sorry for yourself
Now that you want enough, you're so upset (you're so upset)
Six months you should call back and try again

Playin' for the takin'
But gave in when you aimed for my heart

Made you miss me
Now you wanna kiss me
Hope you're listening
Can't delete your history
But I made you miss me
(Made you, made you miss, made you, made you miss)

Made you miss me
Now you wanna kiss me
The words my lips sing
You and me are history
But, I made you miss me
(Made you, made you miss, made you, made you miss
Made you, made you miss, made you, made you miss)
Made you miss me

Do you think about lovin' me, about lovin' me

Do you wanna be, wanna be
Do you think about holdin' me when you go to sleep
Do you wanna be, wanna be
Do you think about lovin' me, about lovin' me
Do you wanna be, wanna be
Do you think about holdin' me when you go to sleep
Do you wanna be

Made you miss me
Now you wanna kiss me
Hope you're listening
Can't delete your history
But I made you miss me
(Made you, made you miss, made you, made you miss)

Made you miss me
Now you wanna kiss me
The words my lips sing
You and me are history
But, I made you miss me
(Made you, made you miss, made you, made you miss
Made you, made you miss, made you, made you miss)

I made you miss me
I made you miss me
I made you miss me
I made you miss me
