

More Than Friends

Maddie Poppe

I've known you for a long time
Basically my whole life
You pick me up when I'm feeling down
And you've never left my side
But I've had this feeling way, way deep down
That butterfly feeling in the movies they always talk about

I say hey...
Let's be more than
More than friends
Let's be more than Friends
If you want to, more than Friends
Cause I feel that way about you
Let's be more than
Let's be more than friends

So maybe it's just a stupid crush
Or maybe it's more than that
Maybe it's the way the other day
You wanted to talk and so you sat down
Next to me, and it just felt so right
Well, I'm not one of those obsessive girls
Who thinks about you every day and night, but

Hey...
Let's be more than
More than friends
Let's be more than friends
If you want to, more than friends
Cause I feel that way about you
Let's be more than
Let's be more than friends

Do, do do do...
More than

I've played it over
I've played it over in my head
And I realized, and I realized we could we could never
We could never ever ever be more than friends, so

Do, do do do...
More than

So, hey...
Let's keep our distance but
Same cause I like
Spilling my secrets to you
And although I might like everything that you do
I'm so lucky
I'm so lucky
I'm so lucky
I'm so lucky to have a friend like you
