

# Don't Make Her Look Dumb

Maddie & Tae

She's the kind to go find  
The best side of the worst kind, like you  
Yeah, we see it but she doesn't  
So don't think for one minute you got us fooled  
We all mind our own business  
Until hearts start to break  
The bad boy seems like a good idea till it's too late

No one's gonna judge you if it don't work out  
People think they're fallin' in and end up fallin' out  
But it seems like you're enjoying this, like you're doing it for fun  
If you don't love her, leave her  
Tell her that you're done  
Just don't make her look dumb for loving you

Yeah, she's holding that heartstring  
That you won't cut and it keeps her hanging on  
Yeah, ya keep the door wide open  
Then you leave her always hoping you'll come home  
You don't have to listen  
You don't have to talk  
They're too polite to say it but I'm not

No one's gonna judge you if it don't work out  
People think they're fallin' in and end up fallin' out  
But it seems like you're enjoying this like you're doing it for fun  
If you don't love her, leave her  
Tell her that you're done  
Just don't make her look dumb for loving you
