

Down That Road

Maddie & Tae

Boy, you got some nerve to come knockin'
With your truck still runnin', thinkin' I'ma just hop
Into the passenger seat
Wouldn't that be sweet?

I gave you one chance and then another
So I'm burning that bridge 'stead of burning that rubber
Going nowhere fast
Been there, done that

Been down that road
Had fun for a minute
'Til love got muddy and I got stuck in it
Took more than a chain to pull my heart outta that
Been down that road, and I ain't going back

Ya had me going, boy, full throttle
Took three of my girls and some broken-heart bottles
Just to fix what you broke
Baby, let it sink in on your lonely ride home

Been down that road
Had fun for a minute
'Til love got muddy and I got stuck in it
Took more than a chain to pull my heart outta that
Been down that road, and I ain't going back

I ain't sitting shotgun, find ya somebody else
Ain't going back for a ride on your highway to hell

Been down that road
Had fun for a minute
'Til love got muddy and I got stuck in it
Took more than a chain to pull my heart outta that
Been down that road

Been down that road
Boy, you just don't get it
We're way, way past forgetting and forgiving
Took more than a chain to pull my heart outta that
Been down that road, and I ain't going back

No, I ain't going back
