

Merry Married Christmas

Maddie & Tae

Hey darling
I think it's starting to snow

Sugar honey
It's time to pull me in close

It's finally here, let's grab a glass and cheers
And have a holly jolly newlywed Christmas this year

Baby I don't need a present wrapped under the tree
I got your loving's so there's nothing you could buy that I need
We can start a new tradition light a fire, end with you kissing me
You're my mister, I'm your misses baby
It's a merry married Christmas
Merry married Christmas

So darling
Is it all you wanted and more
Do you love it
The wreath I made for the door
With my new last name, come on let's decorate
Every inch and corner of this home that we made

Baby I don't need a present wrapped under the tree
I got your loving's so there's nothing you could buy that I need
We can start a new tradition light a fire, end with you kissing me
You're my mister, I'm your misses baby
It's a merry married Christmas
Merry married Christmas, baby

Oooh it's a merry married Christmas with you
Oooh it's a merry married Christmas for two

Baby I don't need a present wrapped under the tree
I got your loving's so there's nothing you could buy that I need
We can start a new tradition light a fire, end with you kissing me
You're my mister, I'm your misses baby
It's a merry married Christmas
Merry married Christmas

Hey darling
I think it's starting to snow
