

Well In Your World

Maddie & Tae

Haven't seen you in a while
I don't know where you are these days
Did you ever get to Colorado
Or did something make you stay in this place?

I'd be lying if I said I missed you
But I'd be lying if I said you never cross my mind
Sometimes

I go back to Friday Night Lights, seventeen
We thought we were forever, we were so naive
Hadn't felt a broken heart yet
Do you still think about that?
That night we snuck away and the hood of your car was
The first taste of freedom underneath those stars
We're a thousand miles away from who we were
When we were just a boy and a girl
I hope all is well in your world

I hope you found somebody who
Puts a smile on your face every day
Loves every part of you
But that don't mean it ain't okay, yeah
To look back on the thing we had
And not be mad and not be sad
'Cause sometimes love just comes and goes
Boy, I know you go, yeah, you go

Back to Friday Night Lights, seventeen
We thought we were forever, we were so naive
Hadn't felt a broken heart yet
Do you still think about that?
That night we snuck away and the hood of your car was
The first taste of freedom underneath the stars
We're a thousand miles away from who we were
When we were just a boy and a girl
I hope all is well in your world
Yeah, I hope all is well in your world

No, you ain't out there missing me
And I don't want you back
We're right where we're supposed to be
But we'll always have

Those Friday Night Lights, seventeen
Thought we were forever, we were so naive
Hadn't felt a broken heart yet (Felt a broken heart yet)
Do you still think about that?
That night we snuck away and the hood of your car was
The first taste of freedom underneath the stars
We're a thousand miles away from who we were
When we were just a boy and a girl
I hope all is well in your world
Yeah, I hope all is well in your world
I hope all is well in your world
