

Fastforward

MadeinTYO

Uh, say you love me
She ride around town, really think about me
Wonder if I feel the same
I tell her that I moved on, memories is game
I learned to stay calm yea when things go insane
Maybe you can be perfect, if you clean the surface
I learned that my mental is, way more worth it
Riding with the tinted windows, Maybach got curtains
I found my everything when I wasn't searching

Yeah, uh, now she come around
I bet she hold it down
I learned from my mistakes I never hate, I shut it down
It's funny when you move on yeah they love you now

Uh, but now she come around
The boy don't play around
I told her when she get home please lay it down
Don't worry bout' being quiet, wanna hear the sound
For real, is that too much to ask for?
You a Tesla girl, whatchu need the gas for?
Lately I've been in my bag more
Dedicated, motivated, don't push fast foward
