I've been mo' taking pictures and spending mo' time  
A lot more focused yea I'm not waiting in line  
I figure I can motivate you if you wanna listen  
Work hard, play later I show you how to get it  
I still rock Virgil's oo yeah I must admit it  
Dolla', Dolla' get your bread I'm all about a biscuit  
Words in my head yea you know my son watching  
Loui' V typa guy, got no other option  
7 miles back I lost my mind in all that  
I promise that I wouldn't show no feel no struggle here  
And yeah you got to get it when it's not near  
I swear these niggas weird you could hear me right there

Still remember conversation with people that's gone  
I know the vibes still here I feel it in every song  
You know our kids pick up emotion please don't drag it on  
And if you got it then heal along well then heal along  
I figure I could take a break from social media  
Please change up your dial watch what they feedin' ya  
I was cold once but changed up the temperature

Uh, Harajuku Rick Owens zip up  
Work hard now my shit up  
I told you can't [?] never give up
