This so smooth, pop it in and just drive slow  
Old Bapestas came in the mail, got 'em for the low  
In the city where every corner got a weed store  
Smoking White Cherry Gelato, I think I need some more  
Don't gas me up, I invite her out  
No, she couldn't pass it up  
Tesla drive a passenger  
Hard denim, Japanese cup  
Go ahead and re-up  
You know we 'bout to T-up  
They looked past us and now they fucking see us  
Funny how things change  
Now I'm in a new Range, huh  
I'm making money not worried 'bout fame, huh  
He stressed out, man I swear we're not the same, huh  
Look  
Louis luggage, put you in a budget, you gon' love it  
They hate to see it but believe it, yeah we doin' lovely  
I don't know why they close, them hater wanna touch me  
But I just keep on rolling  
And I just keep on rolling
