

Keeping it jazzy, I sound like a flute  
They told me that I influenced the youth  
Making them racks when I jump in the booth  
If you get faded don't slide in that coupe  
Watch what these rappers be preaching to you  
So much damn drama, I stay in the room  
Catch me in Tokyo, really go zoom  
Catch me in Tokyo, really go zoom  
Hit me up when you wanna fall through  
I can show you how to run it up, boo  
Chrome Hearts on my neck and my wrist  
Poppin' bottles with a model lil' bih'  
How many racks did you spend on your fit?  
How many racks did you spend on your fit?

She never really had it like this  
[?] I ain't even write this shit  
Shorty wanna suck this huh  
Foreign whip with a cutless huh  
If I get it, then it's gone  
Tokyo snappin' in songs  
Smoking weed out a bong  
Tell Chi that I'm home  
Please don't get me wrong  
ET, phone home  
I'm rolling rolling like a stone  
Outfit, no stylist  
Top 10 [?]  
I never drove a damn Audi  
I heard my ex asked about me  
If I go ghost they never gon' find me  
I'm too lit in the room  
I'm the littest in the room  
She could get it in the room  
If I throw money she gon' need a broom  
If I drop hits you know it's gon' boom  
Baby move petty, then I'm moving on  
They call me OG, I'm rolling it strong  
Skr
