

Stay by your phone  
Shit get to crazy and just might need you  
Please don't miss my call  
I've been hittin' my plug way more than I need to

I've been hittin' my plug way more than I need to  
Call my phone, call service Ima see you  
Dior shades, downtown Ima keep you  
Ice you up, yeah, diamonds looking see-through  
Say you need a real one, girl come get it  
Shit always get crazy, yeah, Ima slide through  
She was always solid from the jump now  
If you solid, baby, yeah hold it down

Need you hold me like a friend  
So when I go I can't depend  
'Cause times I get childish  
My mind gets to wildin'  
I don't trust nobody  
I'm trying

But stay by your phone  
Shit get to crazy and just might need you  
Please don't miss my call  
I've been hittin' my plug way more than I need to

I won't miss a call, girl, you know I got you  
Keep you in designer, giving you time too  
And if I don't pick up I'm probably in my bag  
Like "Baby, call me back"  
The best I ever had  
Like "Bae, don't get mad"  
You're the best thing that happened  
Plus you're the baddest  
I give you loyalty 'cause love is overrated  
I fell in love with your mind, never basic  
Please stay by your phone  
Give you my all  
If shit gets crazy, can I count on your call?

So stay by your phone  
Shit get to crazy and just might need you  
Don't miss your call  
I've been calling my plug way more than I need to  
Stay by the phone  
Shit get to crazy, I just might need you  
Please don't miss my call  
I've been hitting my plug way more than I need to
