

Day One

Madeline Juno

He said, "Give it all, give it all you got
Replay, play, and rewind it"
That one night out there, out in the dark
When he said, "Wait, wait for my heart"

I, I know you
I, I know the truth
I've been waiting for so long
And now come back home 'cause

You don't even know that I missed you
From day one, from day one
You don't even know that I'm counting
Days ever since you're gone

And you and I could sit and watch the night sky
Until then I'll hope to see you in my sleep
Oh, oh, oh, oh
Oh, oh, oh

He said, "Oh girl, stop watching your life like
Watching your life like a movie
Just give it some time and you'll see
We'll be life's sweet melody," oh

I, I know you
I, I know you cried
'Cause you've been waiting for so long
And now come back home 'cause

You don't even know that I missed you
From day one, from day one
You don't even know that I'm counting
Days ever since you're gone

And you and I could sit and watch the night sky
Until then I'll hope to see you

As long as it takes I'll be standing still
I won't make a sound, the silence is so loud
Come and save me, come and hold me
Wooooaaah, whoa

Did you even know that I missed you
From day one, from day one?
Did you even know that I'm counting
Days ever since you're gone?

And you and I could sit and watch the night sky
Until then I'll hope to see you in my sleep
Oh, oh, oh, oh
Oh, oh, oh

Oh, oh, oh, oh
Oh, oh, oh, oh
Oh, oh, oh, oh
