

Do It Again

Madeline Juno

You say it's foolish mistake
Don't wanna know, wanna know (wanna know)
You say, and all my friends say the same
I should let you go, let you go (let you go)

We're on a tiny planet. in a no ending space
From one into one second, we'll be never the same again
Today, I'm an Indigo Girl, hunting high and low
High and low, high and low, oh

A little careless, a little radical
A little here and now forever
Maybe it's stupid, maybe irrational
And although I know it doesn't make sense

(I wanna do it again) again and again
(Wanna do it again) again and again (wanna do it again)
The same love, the same stars, crashing into the end
Wanna do it again (again), wanna do it again (again)

Hush, hush, in a place out of time
There's no way out, no way out, oh
Just wipe the dust right out my eyes
Gotta see you more, I see you now, I see you now, oh

A little shipwrecked, but so unsinkable
A little up and down forever
Maybe it's stupid, maybe irrational
I don't care if it doesn't make sense

(I wanna do it again) again and again
(Wanna do it again) again and again (wanna do it again)
The same love, the same stars, crashing into the end
Wanna do it again (again), wanna do it again (again)

A little happy-sad miracle (uh-oh)
A little typical, unteachable (uh-oh)
Something invisible, mystical (uh-oh)
A little you and me, invincible (uh-oh)

(I wanna do it again) again and again
(Wanna do it again) again and again (wanna do it again)
The same love, the same stars, crashing into the end
Wanna do it again (again)

(Wanna do it again) again and again
(Wanna do it again) again and again and again
The same love, the same stars, crashing into the end
(Wanna do it again) again (into the end)

(Wanna do it again) again (into the end)
Wanna do it again
