

# Please Don't Have Somebody Else

Madeline Juno

Hold on, tell me, did I get this right?  
A moment ago, I saw it in your eyes  
Maybe I'm a bit out out of my mind  
Don't go before we get rid of this mess  
An hour or so could take this off my chest  
Maybe that could be the best thing  
Could you try to help me stand?

Cause I can't keep myself from falling  
I wanna hold your hand  
And I can't stand these lonely mornings  
Take me back to your bed  
Please don't have somebody else waiting on you  
Please don't have somebody else  
Please don't have somebody else waiting on you  
Please don't have somebody else

What if I told you you might have my heart?  
A foolish one and just a little scarred  
Maybe you'd be someone that I'm good at  
Hold still, tell me if you think it's right  
An hour ago, you walked into my life  
All I need is just a tiny sign now  
Could you try to help me stand?

Cause I can't keep myself from falling  
I wanna hold your hand  
And I can't stand these lonely mornings  
Take me back to your bed  
Please don't have somebody else waiting on you  
Please don't have somebody else  
Please don't have somebody else waiting on you  
Please don't have somebody else

Say, can you tell I'm dying to be the one you hold at night?  
Can you tell I'd risk it all to make you mine?  
Oh, I can't stop my pulse from racing  
My heart from chasing stars

Cause I can't keep myself from falling  
I wanna hold your hand  
And I can't stand these lonely mornings  
Take me to bed  
Please don't have somebody else waiting on you  
Please don't have somebody else  
Please don't have somebody else waiting on you  
Please don't have somebody else
