

Salvation

Madeline Juno

Do you know how they say, how they say in the movies
"Once you stop searching love will come your way"
Never again will I let someone in, I said
I might've just jumped the gun

Dancing alone might've been fun before you came to realize
The lights went out but your silhouette appeared in my sight

You took my heart
You're my salvation
You lift me up
You're my salvation
You're my salvation

I do recall, I never thought anything could ever change
So easy giving up on hope
With all the love in you just waiting to be found
I might've just jumped the gun

Walking alone might've been cool before you came to realize
The lights went out but your silhouette appeared in my sight

You took my heart
You're my salvation
You lift me up
You're my salvation
You're my salvation

Dancing
Da-da-dancing
Da-dance-dance
Da-da-da
Dancing
Da-da-dancing
Da-dance-dance
Da-da-da
Da-da-da
Dancing

You took my heart
You're my salvation
You lift me up
You're my salvation
You're my salvation

Dancing alone might've been fun before you came to realize
The lights went out but your silhouette appeared in my sight
You're my salvation
