

## Second Time Around

Madeline Juno

It must be something in the way things are between us  
I can't shake it off  
I don't know what it is, where we're going  
Do you miss me the way I miss you?  
Whenever we don't talk, whenever we fade  
Whenever we float apart in every way  
I know that I can't help myself but rip out my heart  
Now it's yours to have won't you let me

Take you back to the place where we first met?  
Just take my hand again and kiss me on my forehead  
Say, "We'll be alright this is our time now  
We'll make it work somehow," oh

Second time around  
Second time around

It must be something in the way you smile  
In the way you walk with your head held so high  
And I'm blue as your eyes, you're not mine  
And do you recall now  
The night when you would say, "Give it some time  
Just wait a little longer and you are mine"  
I knew I couldn't help myself but rip out my heart  
Now it's yours to have, won't you let me?

Take you back to the place where we first met?  
Just take my hand again and kiss me on my forehead  
Say, "We'll be alright this is our time now  
We'll make it work somehow," oh

Second time around  
Second time around

I, I didn't lie, I, I didn't lie  
And I'm sorry I'm not what you wanted  
I, I won't cry no more, I won't cry  
I'm giving you up, I'm giving you up

If you can't seem to want me  
The way I want you  
Won't you let me

Take you back to the time when you loved me?  
You had me hanging on your last words  
You said we'd be alright, this was our time now  
Don't let me go now

One second time around  
Second time around  
Don't let me go now  
Second time around
