

## You Know What?

Madeline Juno

You know what? I think you and I did something right  
When you took me to your place last night  
Cause my fingers were like spikes of ice and now they're better  
You know what? If an hour's all the time we've got  
Please, just tell me what you're thinking of  
Cause my lips can't seem to get enough when we're together

We got caught in a dream but it's not what it seems  
Guess you're Enoch and I'm Annabel  
If I get to decide if this love's gonna die  
I know I never wanna wish you well  
If I gave you up, no, I could never tell  
If we're caught in a dream or not

You know what? I don't care if you say this is nuts  
I got trust enough for both of us  
If you doubt it, then you better hush and just forget it  
You know what? I got a ticket I can rip apart  
Rather paper than a broken heart  
Just say yes before I get too far and I regret it

We got caught in a dream but it's not what it seems  
Guess you're Enoch and I'm Annabel  
If I get to decide if this love's gonna die  
I know I never wanna wish you well  
If I gave you up, no, I could never tell  
If we're caught in a dream or not

Would you mind me if I stayed here just for another night?  
If I walked out the door now, I'll never get it off my mind

We got caught in a dream but it's not what it seems  
Guess you're Enoch and I'm Annabel  
If I get to decide if this love's gonna die  
I know I never wanna wish you well  
If I gave you up, no, I could never tell  
If we're caught in a dream or not
