

Crush

Madeline Merlo

Suddenly
You're standing right in front of me
My heartbeat flutter
Trying not to stutter
I could hardly speak
Southern charm
Trying not to show my cards
Your smiling blue eyes
Well they took me by surprise
And I fell apart

I don't know where this is going
We came so close to never know when

If it's love, love
I don't wanna say it, it's my heart
I don't wanna break it
I know, I know I've never felt like this
I'm holding my breath 'til the next kiss
I wish you would call my bluff
When I keep calling it a crush, crush
I keep calling it a crush, crush
When I keep calling it a crush, crush
When I keep calling it a crush

Try to fight
But you ain't gettin' off my mind
Your t-shirt, blue jeans
Showing up in every dream, every night

I don't know where this is going
We came so close to never know when

If it's love, love
I don't wanna say it, it's my heart
I don't wanna break it
I know, I know I've never felt like this
I'm holding my breath 'til the next kiss
I wish you would call my bluff
When I keep calling it a crush, crush
I keep calling it a crush, crush
When I keep calling it a crush, crush
When I keep calling it a crush

I know, I know the words are on your lips
I know, I know I want more than this
But I'm too scared
Too scared to say too much
So I keep calling it a crush

If it's love, love
I don't wanna say it, it's my heart
I don't wanna break it
I know, I know I've never felt like this
I'm holding my breath 'til the next kiss
I wish you would call my bluff
When I keep calling it a crush, crush

When I keep calling it a crush, crush
I keep calling it a crush, crush
When I keep calling it a crush
I keep calling it a crush
