

# Surrender

Madeline Merlo

You can't deny, can't deny, can't deny what you're feeling  
Hide behind the light but your eyes can't conceal it  
The way you look at me, it tells me all I need to know  
Oh oh oh oh oh oh oh

Come on take a ride, you and I is the deal  
If you don't wanna drive, honey, I'll take the wheel  
The way you look at me, it tells me we ain't turning round  
So let your guard down

Surrender, tonight and forever  
Surrender, just you and I together  
So if you wanna take this ride better set your heart free  
Surrender, surrender to me

Oh come on surrender, surrender to me

You can fight, you can fight, fight it all you want  
But when something's this right ain't nowhere you can run  
The way you look at me, it gives you up, your secrets out  
So lay your arms down

Surrender, tonight and forever  
Surrender, just you and I together  
So if you wanna take this ride better set your heart free  
Surrender, surrender to me

Oh come on surrender, surrender to me  
Oh come on surrender, come one surrender, surrender to me

You can't deny, can't deny, can't deny what you're feeling  
Surrender to me

Surrender, tonight and forever  
Surrender, just you and I together  
So if you wanna take this ride better set your heart free  
Surrender, surrender to me

Oh come on surrender, surrender to me  
Oh come on surrender  
You and I together, tonight and forever  
Surrender  
You and I together, tonight and forever  
Surrender, surrender to me
