

Whatcha Wanna Do About It

Madeline Merlo

Couldn't take my eyes off you even if I wanted to
I gotta feeling that your feeling like you want me to move
A little bit closer to you, I want you closer to me
Got all the makings of a this could be a good thing

Whatcha wanna do about it
Baby how's it gonna be
Ain't no need to dance around
What's going on between you and me
We got the where and the want to
Baby and the night is young
Couldn't get any better I doubt it
Whatcha wanna do about it

The midnight moonlight starlight shining down
Everything coming together, yeah, right now
We're here and our hearts are pounding
Whatcha wanna do about it

All I can think about is I can't think about anything else
How bad I want you know it ain't like nothing I've ever felt
You've got the kisses I need, we got some memories to make
Would be a shame to let 'em all go to waste

Whatcha wanna do about it
Baby how's it gonna be
Ain't no need to dance around
What's going on between you and me
We got the where and the want to
Baby and the night is young
Couldn't get any better I doubt it
Whatcha wanna do about it

The midnight moonlight starlight shining down
Everything coming together, yeah, right now
We're here and our hearts are pounding
Whatcha wanna do about it
Do about it

Whatcha wanna do about it
Baby how's it gonna be
Ain't no need to dance around
What's going on between you and me
We got the where and the want to
Baby and the night is young
Couldn't get any better I doubt it
Whatcha wanna do about it

The midnight moonlight starlight shining down
Everything coming together, yeah, right now
Whatcha wanna do about it
Whatcha wanna do about it
Whatcha wanna do about it
