

All Ur Luv

Madeon

Just give me all your love
Just give me all your love (Keep on dancin')
(So let's keep on dancin')

This whole time, I've been chasing this high
But you can't find love if you can't find the time
So let's keep on dancin' 'til we're out of line (Just give me a
ll your love)
That's so romantic, that's usually a crime

(Just give me all your love)
I think I might be right here for awhile
Let this memory go if I got to
(Just give me all your love)
I think I might be right here for awhile
I know I won't be the same without (Your love)

Baby, I know it won't be the same without (Your love)
Baby, I know it won't be the same (Just give me all)
Baby, I know it won't be the same without (Your love)
Baby, I know it won't be the same (Your love)

If you break my heart, I'll get up again
This is just a start, but I don't want it to end
My mind is racing, and I don't know myself
So tell me something that you wish that I'd say

So, oh, I feel like I'm gonna need a little more of your time
Is there somebody else, or can we give it a try?
Girl, are you in? Just give me your name
I know I won't be the same without (Your love)

Baby, I know it won't be the same without (Your love)
Baby, I know it won't be the same (Just give me all)
Baby, I know it won't be the same without (Your love)
Baby, I know it won't be the same (Your love)
Baby, I know it won't be the same without (Your love)
Baby, I know it won't be the same (Just give me all)
Baby, I know it won't be the same without (Your love)
Baby, I know it won't be the same (Your love)

(Your love)
(Just give me all)
