

Miracle

Madeon

I've been trying to be every man you saw in me
But in my eyes I just flicker out
And blur like ghosts
Before I go, I know
Can you show me a miracle?
I wish I'd stay the night, but I've got to go to America
And this could take a while
Isn't it time that I come alive
Endless in this life but I don't know how
So I'll go
So I'll go

And so I'll go
And so I'll go

Can you show me a miracle?
Can you show me a miracle?
Can you show me a miracle?
Can you show me a miracle?
