

No Fear No More

Madeon

I know when I listen to my

You used to tell me not to dream away
Go chase the safety not the rush
You say this future is a world away
I think you worry way too much

Just like before
My spirit coming up
What do you talk for?
You'll never make us stop
Beyond the shore
We'll take it to the top
No fear no more
No fear no more

Just like before
My spirit coming up
What do you talk for?
You'll never make us stop
Beyond the shore
We'll take it to the top
No fear no more
No fear no more

I know when I listen to my
I know when I listen to my (No fear! No more!)
I know when I listen to my (No fear! No more!)

Just like before
My spirit coming up
What do you talk for?
You'll never make us stop
Beyond the shore
We'll take it to the top
No fear no more
