

The Prince

Madeon

I'm gonna be the story we believed in silence
The rising and the fall
Like nobody before
But I get comfortable
Til I profess my youth to nothing
I'm running from the floor

But if I do
She tells me to believe
I beg of you
I'm trying to
She tells me that the world is up to you
And if I knew
This love will do
This love will do

Cause I fall when I feel
But if all that you give me
Is enough to fight it
It's a mess I won't make anymore
Like a thousand times before and
In the times that I wish I was younger
With hunger to be somebody
Can I dance at the edge of your love

But if I do
She tells me to believe
I beg of you
I'm trying to
She tells me that the world is up to you
And if I knew
This love will do
This love will do

Going on
Every day
I'm gonna keep going on
Try my best
And now that love has come
Every day
I'm gonna keep going on
Try your best
