

Control

Madi Diaz

Everybody tells me that I'm not that strong
'Cause you lead me on
Everybody's saying you're never coming back
One more heart attack

If somebody tells me the truth just one more time
I'm gonna lose my mind
Oh when you leave, when you leave, when you leave I'm waiting u
nder the sheets
Under the sheets

CHORUS

I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
Oooh

VERSE

I know I shouldn't give you all of those fancy things
Baby, that diamond ring
I keep doing it anyway
When you're gone I don't wanna think this way
I want you to come back 'cause I can't go on, on

I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
Oooh

Why you gotta do
Why you gotta do

I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
I wanna know what its like to be the one in control
Oooh

Why you gotta do
Why you gotta do
