

## Do It Now

**Madi Diaz**

I've never not been good at beginnings  
Good at undressing and better at feeling  
Better at trusting, I've never not been  
All of a sudden, all of me's shutting down  
And I don't wanna shut you out of my head  
And turn what I'm thinking down  
Do you really wanna hear me say it out loud

If you're gonna love me show me how  
If you're gonna hurt me do it now  
If I give you everything will it freak you out  
If you're gonna love me do it now

Picked up the habit of making a statement  
Before I could have it, before I could keep it  
I could make plans but it's out of my hands and  
I've never not been good at emotions  
I, no I don't wanna shut you out of my head  
And turn what I'm thinking down  
Do you really wanna hear me say it out loud

If you're gonna love me show me how  
If you're gonna hurt me do it now  
If I give you everything will it freak you out  
If you're gonna love me do it now  
Oh, do it now  
Mm, do it now

If you're gonna love me show me how  
If you're gonna hurt me do it now  
If I give you everything will it freak you out  
If you're gonna love me do it now
