

## Down We Go

Madi Diaz

You see things  
So crystal clear  
My eyes get cloudy  
Every time you come near  
I need you here

If you move to far then I will know  
And down we go

I don't know how to move  
I don't know how to move  
I can't explain  
Wasting my time with you  
Is all that I want to do  
Oh will you stay  
Or will you walk away

I trust you  
To draw the line  
But then I'm looking your way  
You're stumbling over to my side

Can't take more of the same tonight  
Not this time
