

Dream Goes On Repeat

Madi Diaz

Reaching out for someone in the dark
Is it you, is it you
I keep trying to picture who you are
While you're passing through

Everyone who loves will leave
And the dream goes on repeat
And the dream goes on repeat
Everyone who loves will leave
And the dream goes on repeat
And the dream goes on repeat

Give a piece of me with every breath
When our selves collide
The sand is spilling I can't hold it back
And it's my desire

Everyone who loves will leave
And the dream goes on repeat
And the dream goes on repeat
Everyone who loves will leave
And the dream goes on repeat
And the dream goes on repeat

Wide awake, above a dream
Wide awake, above a dream
Wide awake, above a dream
Wide awake, above a dream
Wide awake, above a dream
Wide awake, above a dream

My love, all my love
All my love, is on repeat
My love, all my love
All my love, is on repeat

(Everyone who loves me, everyone who loves me)
My love, all my love
(And the dream goes on repeat)
All my love, is on repeat
(Everyone who loves me, everyone who loves me)
My love, all my love
(And the dream goes on repeat)
All my love, is on repeat

My love, all my love
All my love, is on repeat
My love, all my love
All my love, is on repeat
