Fatal Optimist

Madi Diaz

Know what to do to make it start
Know what to do to make it end
And if I fall apart
It's when I'm only human

I know that it's trouble, I know that it's dumb
But it might be hot, and it might be fun
Know it in my heart, feel it in my gut about you

I hate being right
I hate being right
I, I know exactly what this is
I'm a fatal optimist

Forget I've ever been hurt
Forget the reasons why
Forget that I'm on Earth
When I start looking at the sky

I'm feeling something coming up
I'm a different person
Don't know who that was
Know it in my heart, feel it in my gut about you

I hate being right
I hate being right
I, I know exactly what this is
I'm a fatal optimist

I know exactly what this is
I know exactly what this is
I know exactly what this is

Every single time, every single time
I hate being right
Every single time, I hate it, being right
I hate it
Oh, I hate it

I hate being right
I hate being right
