

Heartbeat

Madi Diaz

I mapped out every moment, every word
I was at the end long before
You move your lips I stop and listen
I try to fight but I can feel it

Pulling me, pulling me close
Suddenly your heartbeat, heartbeat
Says everything I need to know
Holding me, holding me now
Every thing is you and me, you and me
How can it be from holding me?
Just from holding me, I know

I never told you how somehow you knew
Found a way around and over the lines I drew
Getting closer than I ever wanted
So much closer but I kinda like it

Pulling me, pulling me close
Suddenly your heartbeat, heartbeat
Says everything I need to know
Holding me holding me now
Every thing is you and me, you and me
How can it be from holding me?
Just from holding me, I know

Took all the pieces apart
Took all the pieces apart
You know all of my heart
Thru all the dust and smoke
I feel you pulling pulling hold me so

Pulling me, pulling me close
Suddenly your heartbeat, heartbeat
Says everything
