

# Hope Less

Madi Diaz

Better half of me, better half of you  
Try to make it fit when we don't have to  
Looking at who you are and what I can live with  
I can imagine myself as a picture of something different

You want me to want less  
And I wanted to need less  
I can find all of the parts of myself  
I can undress without feeling desperate  
I hope I can hope less  
Hope less

Needing you tonight, will you come to me?  
Let me dream out loud, let it be easy  
Let it all be true, do this for me  
Give me what you have, so I don't have to feel guilty

You want me to want less  
And I wanted to need less  
I can find all of the parts of myself  
I can undress without feeling desperate  
I hope I can hope less  
Hope less

Whose move is it to move on, ah-ha?  
Whose move is it to move on, ah-ha?  
Whose move is it to move on?  
Whose move is it to move on, ah-ha?

You want me to want less, ah-ha  
And I wanted to need less, ah-ha  
I can find all of the parts of myself  
I can undress  
Hope less  
Hope less
