

## Same Risk

Madi Diaz

What the fuck do you want? Cause I'll give you all that I've got  
I'll let you clean out my closet and I'll let you try on all of  
my dirty thoughts  
If you lay in my bed, I know we're gonna have sex  
It'll happen so fast, make a suicide pact, and you can't take that  
back

Do you think this could ruin your life?  
Cause I could see it ruining mine  
And I feel mean for even thinking this  
Are you gonna throw me under the bus?  
Make me take the hit for the both of us  
All that I'm asking is  
Are we taking the same risk?

I don't believe a word that's coming out of your pretty mouth  
I let you come in now the call is coming from inside of the house  
Can't tell which one of us is lying  
Hurts like love, feels good like crying

Do you think this could ruin your life?  
Cause I could see it ruining mine  
And I feel mean for even thinking this  
Are you gonna throw me under the bus  
Make me take the hit for the both of us  
All that I'm asking is  
Are we taking the same risk?

Cause I'm standing here naked  
Saying you could have it all  
And it's all  
Out on the table  
And I'm feeling unstable  
Will you catch me if I fall?  
Fall

Do you think this could ruin your life?  
Cause I could see it ruining mine  
All that I'm asking is  
Yeah I'm just making sure  
We're taking the same risk
