

# Wide

Madi Diaz

When the guns go off  
We're running on blind  
Down the darkest tunnels trying to find the finish line  
The pounding in my chest  
Heart beating so loud  
You stop me right before I turn around

When it gets hard  
You see me through it  
My favorite song  
You wanna sing it  
To make me strong

So I can let you in  
Stop the noise inside of my head  
Just hold on to the love you give  
It hurts with every breath but my heart's wide open

I'm alone all the time  
I'm wandering around  
Wondering how to close my eyes in a city this loud  
Staring at my walls  
Turn off all of the lights and try to tear every last one down

When it gets hard  
You see me through it  
My favorite song  
You wanna sing it  
To make me strong

So I can let you in  
Stop the noise inside of my head  
Just hold on to the love you give  
Show me that I can begin  
To fall apart and start again

When it all goes dark  
The night is never ending  
When the day is done  
And you can't keep fighting  
When you've come so far  
And you can't keep going  
No, this is not the end

If I can let you in  
Stop the noise inside of my head  
Just hold on to the love you give  
It hurts with every breath but my heart's wide open  
My heart's wide open  
My heart's wide open
