

# All My Oxygen

Madilyn Bailey

Do you know I watch you when you're sleeping?  
I swear I've never seen you look so peaceful  
I wonder if it's pretty things you're dreaming  
Or something even darker than your demons?

I want to stay, but we'll both suffocate

I can't keep giving you all my oxygen  
How can I save a life if there's nothing left?  
Never knew loving you is losing me instead, yeah  
How can I breathe again?  
When you take my oxygen  
If I give you everything  
How can I?

What have I been filling up my lungs with?  
Thought that I was stronger, but I wasn't  
Do you ever wonder where you're running?  
I won't follow you over if you're jumping

I wanna stay, but we'll both suffocate

I can't keep giving you all my oxygen  
How can I save a life if there's nothing left?  
Never knew loving you is losing me instead, yeah  
How can I breathe again?  
When you take my oxygen  
If I give you everything  
How can I?

Oh, I can't be your life jacket  
I have to save me first  
Can't bandage your damage  
And even though it hurts  
I can't be your life jacket  
I have to save me first  
Can't bandage your damage  
And even though it hurts

I can't...  
I can't keep giving you all my oxygen  
How can I save a life if there's nothing left?  
Never knew loving you is losing me instead, yeah  
How can I breathe again?  
When you take my oxygen  
If I give you everything  
How can I?
