

# Red Ribbon

Madilyn Bailey

I'll take this red ribbon  
Stitch my heart together  
It will heal, given time  
It beats a strange rhythm  
But I'll still go on living  
When I don't get it right

Don't beat myself about the things that didn't work out  
Least I can say is that I tried  
I'll take this red ribbon  
Stitch my heart together and I know I'll be fine

Remember all of the pain, was it all too much?  
Remember falling apart every time we touched  
Remember going insane but I'll never give up  
A heart that's been broken is a heart that's been loved  
Red, red, ribbon, ribbon, red, red, red, red  
Red, red, ribbon, ribbon, red, red, red, red

I'll take this lead pencil  
Make a different picture  
And I'll draw in a smile  
I'll take these sharp scissors  
Cut a new heart out of paper  
You know I'll make it mine

Don't beat myself about the things that didn't work out  
Least I can say is that I tried  
I'll take this red ribbon  
Lie it on the pavement and I won't cross that line

Remember all of the pain, was it all too much?  
Remember falling apart every time we touched  
Remember going insane but I'll never give up  
A heart that's been broken is a heart that's been loved  
Red, red, ribbon, ribbon, red, red, red, red  
Red, red, ribbon, ribbon, red, red, red, red  
(A heart that's been broken is a heart that's been loved)  
Red, red, ribbon, ribbon, red, red, red, red  
Red, red, ribbon, ribbon, red, red, red, red

I've got stitches and scars  
I've got yards of yarn  
Got miles of string running under my skin  
I've got so much to give so I'll give it  
Again and again and again

I'll take this red ribbon  
Stitch my heart together and I know I'll be fine

Remember all of the pain, was it all too much?  
Remember falling apart every time we touched  
Remember going insane but I'll never give up  
A heart that's been broken is a heart that's been loved  
(All too much?)  
Time we touched  
Never give up

A heart that's been broken is a heart that's been loved)

Red, red, ribbon, ribbon, red, red, red, red

Red, red, ribbon, ribbon, red, red, red, red

Red, red, ribbon, ribbon, red, red, red, red

Red, red, ribbon, ribbon, red, red, red, red, red
