

Tetris

Madilyn Bailey

We got that push, that pull, that friction
We got that yin, that yang, juxtaposition
Side by side I feel like you could
Ride with me, symbiotically
Take our broken pieces
Make a symphony, you and me

Playing Tetris
Bodies on a mattress
How we fit together, how we fit together
Perfect messes
Damn, I love your edges
How we fit together, how we fit together

We are a walking contradiction, yeah
I feel your fingertips in high-definition
Learning all your twists and turns
So carefully, your anatomy
Take our broken pieces
Make a symphony, yeah, you and me

Playing Tetris
Bodies on a mattress
How we fit together, how we fit together
Perfect messes
Damn, I love your edges
How we fit together, how we fit together

Feel the chemistry when you're kissing me
There is poetry in our symmetry
When you move with me, move with me
When you move, when you move with me
Feel the chemistry when you're kissing me
There is poetry in our symmetry
When you move with me, move with me
When you move, when you move with me

Playing Tetris
On the mattress
Playing Tetris
On the mattress

Playing Tetris
Bodies on a mattress
How we fit together, how we fit together
Perfect messes
Damn, I love your edges
How we fit together, how we fit together
