

## THIS MEANS WAR

Madilyn Bailey

I'm becoming a star  
Pieces of my heart light up  
Only when it's dark  
Tonight, show me who you are  
Counting scars like constellations  
Connect the broken parts

So break me down  
Just ashes on the ground  
So break me down

I feel it in my bones  
It's burning in my blood  
The pain becomes my cure  
I breathe it in my lungs  
But I just want more  
So push me to the floor  
Cause every time I fall  
Come back stronger than before  
Oh, this means war  
War, war, war...  
This means war

I, I'm coming alive  
What doesn't break me makes me legendary  
Diamonds in the sky  
Tonight, I'm learning to fly  
Every time they try to bury me  
I only rise

So break me down  
Just ashes on the ground  
So break me down

I feel it in my bones  
It's burning in my blood  
The pain becomes my cure  
I breathe it in my lungs  
But I just want more  
So push me to the floor  
Cause every time I fall  
Come back stronger than before  
Oh, this means war  
War, war, war...  
This means war
