It's the first of february,  
And I can't get you outta my head  
I've spent a lot of time searching for the one I wanna be with.  
The cuttest boy I ever have seen didn't look cute,  
But was aiming at me?  
I wonder if, I wonder if he knows,  
Yeah...oh

So if you've found the one throw your heart in the sky  
Let'em him know that love is starting  
Now I'll never have to wonder why  
'Cause we know for sure

She's the reason that I buy a lot of candy in the mall  
Spending all my money  
I gotta make it clear so he understand me  
I ain't got a boyfriend  
But baby you could be my valentine  
Valentine (4x)

So many pretty faces,  
But you are the special one and about to give my heart is like a kick in the  
drum, yeah  
I never wanna leave you  
'Cause I know how much I need you  
I'm happy just to be around you, you

So if you've found the one throw your heart in the sky  
Let'em him know that love is starting

Just say yes and the rest will be okay  
'Cause I got you boy, yeah  
'Cause you're in world, yeah  
Everyday will be valentine's as long as you love me

Spending all my money  
I gotta make it clear so he understand me  
I ain't got a boyfriend

Eh, baby you could be my valentine  
Baby you could be my valentine  
Can you be my valentine  
Valentine? Yeah
