

# Crying In The Night

Madison Cunningham

She was that kind of lady  
Times were hard, times were hard  
She come curling 'round you  
Like fingers

But she'll leave you crying in the night  
She will leave you crying in the night  
Yes, she's going to leave you crying in the night  
She's back in town  
She's looking around

Say, you needed someone to depend on, you're all alone  
She's the only one who come take you far away  
Take your breath away

But she'll leave you crying in the night  
She will leave you crying in the night  
Woah, she's going to leave you crying in the night  
She's back in town  
She's looking around

Come on, baby, she's the wrong kind of girl  
She's a come-on lady, she's a tarnished pearl  
She'll take your money, she'll wreck your world  
Wreck your world

But she'll leave you crying in the night  
She going to leave you crying in the night  
She's going to leave you crying in the night  
She's going to leave you crying in the night  
She's back in town
