I don't wanna argue  
I don't wanna fight  
I just wanna know where you went  
When you left me that night  
I don't wanna be here  
Lying on the floor  
Picking up the pieces you left  
When you walked out that door  
And I don't know why, but it's still open

You left me tired and lonely  
And I can't believe I'm still waiting around  
I don't wanna cry but you know me so well  
I just wanna hold back, but tears, they keep coming  
You may not love me now  
But at least you loved me then  
You left me broken

Looking in the mirror, picture you instead  
And I'm still waking up on your side of the bed  
I've been having dreams, dreams in which you're mine  
I talk to my friends and they say all it takes is time  
And I don't know why, but I'm still hopin'

Oh, you left me tired and lonely  
And I can't believe I'm still waiting around  
I don't wanna cry but you know me so well  
I just wanna hold back, but tears, they keep coming  
You may not love me now  
But at least you loved me then  
You left me  
I don't wanna cry but you know me so well  
I just wanna hold back, but tears, they keep coming  
You may not love me now  
But at least you loved me then  
You left me  
You left me  
You left me
