

Go Back

Madison Ryann Ward

At the lowest parts of me
Found a love to help me see
That nothing's ever wasted
And no one's too far gone

From rock bottom of the sea
To the sky beyond a ceiling
After all I've tasted
And after all I've seen

I never wanna go back
I never wanna know that life before love
I'm living in the moment
I'm running after all that's holy and pure

In the shadow of Your wings
I find all my sanity
I can trust Your cover
I am safe with You

Though I'm promised suffering
I know You're right here with me
Keeping me together
Holding all my dreams

I never wanna go back
I never wanna know that life before love
I'm living in the moment
I'm running after all that's holy and pure
I never wanna go back
I never wanna know that life before love
I'm living in the moment
I'm running after all that's holy and pure

Every fall You break for me
Every hit You take for me
Every tear You catch for me
There's nobody like You

I never wanna go back
I never wanna know that life before love
I'm living in the moment
I'm running after all that's holy and pure
I never wanna go back
I never wanna know that life before love
I'm living in the moment
I'm running after all that's holy and pure
