

Other Side

Madison Ryann Ward

Would my faith be in vain
If I love you through it?
Is my loyalty a surprise?
Thought you already knew it
Been holding onto a chance for this long
Who wants to look up and it's gone
Somehow I see the right in your wrong
Don't use that to string me along

If I love you through it
Will you be there on the other side?
If I take what we had from the past
Will we let it be an outline?

Could our hearts still be in sync
Woah, if I love you through it
Would you still know what I'm thinking?
If I'm unsure, would you take time to prove it
Be honest, don't wanna hold my breath
'Cause I don't have much energy in me left
Will our equity bring more interest?
Will you insult my intelligence?

If I love you through it
Will you be there on the other side?
If I take what we had from the past
Will we let it be an outline?

Oh, wish we could sign a, an affidavit
Make sure our movement is calculated
Keep it original, not fabricated
Do you promise to keep both of us activated? Oh

If I love you through it
Will you be there on the other side?
Woah, if I take what we had in the past
Will we let it be an outline?
Woah, if I love you through it
Woah, if I love you through it
Woah, woah
If I love you through it
Will you be there on the other side?
