

## Are You Coming (With Me)

Madness

Could it be someone's telling lies  
Or could it be that I'm getting wise  
Awoke myself from a nose-dive glide  
I caught myself but you've lost all pride

I'm not going with you  
Won't you come on with me?

See your world in a drift fly past  
So good the feeling you want to last

I'm not going with you  
Would you come on with me?

I'm not here to watch day and night  
Or to hear you drift out of life

If I could wake you  
A moment I would  
Share you my lifeline  
Feed you some good  
If I could wake you  
A moment I would  
Share you my lifeline  
Feed you some (good)

I'm worried for you  
But you not for me

When everyone's living  
I know where you'll be

If I should listen to your proposal  
Put my future at your disposal

Promise me you'll keep yourself clean  
Cut yourself from your mid-day dream.

If I could wake you  
A moment I would  
Share you my lifeline  
Feed you some good  
If I could wake you  
A moment I would  
Share you my lifeline and  
Feed you some good
