

Lockdown and Frack Off

Madness

The numbers up
The numbers down
The lights are out
All over town

Lock-downs back
People settling down
For the curtain twitch
Get ready to snitch

Ha ha ha ha, get ready to snitch

Sha na na na na
Sha na na na no

Sha na na na na
Sha na na na no

Life's a bitch
Ain't it rich
Fingers at the ready
Scratch the free phone itch
Dial this number across the nation
For a years supply of vaccination
Come on down
Tonight's the night
Results are good
The Price is right
Satisfy the common need
Gratify the common greed

Hey now
Who you gonna be now
What you gonna do now
When the lights go down

Hey now
Where you gonna run now
Before the setting sun now
Where you gonna go now

Mad Max was right
Petrol heads
Asda was like
The Dawn of the Dead
Panic buying loaves of bread
The toilet roll riots
You'll be left for dead
Powering up
The neighborhood
Who ever thought it would feel this good
So get your fracking hat on
And drill in deep
Any cash you find you get to keep
Boys and girls, ready to blow
All bottled up with nowhere to go
Eco warriors are in the loop

Weaponizing tomato soup
Hey now
Who you gonna be now
What you gonna do now
When the lights go down

Hey now
Where you gonna run now
Before the setting sun now
Where you gonna go now

Hey now
Who you gonna be now
What you gonna do now
When the lights go down

Hey now
Where you gonna run now
Before the setting sun now
Where you gonna go now

Sha na na na na
Sha na na na no
